**STEEL KITCHEN CABINETS**

*St. Charles Manufacturing Co.*  
*St. Charles, Illinois*

# *At Last!* PRICE NO LONGER If St. Charles Econo

Modern equipment, mass production, improved methods and simplified design have reduced manufacturing costs to the minimum without sacrificing appearance, construction or finish.

Architects, Home owners, Contractors and Builders may now enjoy the use of St. Charles Econo-Line Steel Kitchen Cabinets at prices so low that actual savings may be made through the use of Steel cabinets in the kitchen.

At the same time the owner may enjoy all the recognized advantages where steel is used in the construction of kitchen cabinets.

# PROHIBITS THE USE OF STEEL

## *Econo-Line* Kitchen Cabinets are Specified

ST. CHARLES ECONO-LINE STEEL KITCHEN CABINETS INCORPORATE ALL THESE QUALITY ADVANTAGES.

- Doors are sound deadened.
- Drawers are sound deadened and operate on easy operating steel and terneplate slides.
- Drawers and doors operate easily and quietly, will not stick or warp.
- They are finished in beautiful lustrous baked enamels. Seven colors are available, No. 1020—light ivory; No. 20—dark ivory; No. 1030—light green; No. 30—dark green; No. 1040—light tan; No. 40—dark tan; and No. 10—white.
- A wide range of standard accessories—flour and sugar bins, bread and cake boxes, cutlery trays, towel driers, garbage receptacles, etc., may be secured.
- They are modern in design, sturdy in construction, attractive in appearance.
- They make possible an attractive steel kitchen at a cost low beyond expectation.
